- [x] Server
- [x] Printer
- [x] IT Department
- [x] HR Department
- [x] Finance Department
- [x] Sales Department

VLAN SUMMARY

VLAN	DEPARTMENT / PURPOSE	SUBNET
10	IT Department	192.168.10.0/24
20	HR Department	192.168.20.0/24
30	Finance Department	192.168.30.0/24
40	Sales Department	192.168.40.0/24
50	Servers	192.168.50.0/24
60	Guest Wi-Fi	192.168.60.0/24
70	Network Management	192.168.70.0/24

LEGEND

- Wired Connection
- Wireless Connection
- Trunk Link (802.1Q)

NOTES

- VLANs are used to separate departments and improve network security.
- Firewall protects the internal network and supports NAT, VPN, and content filtering.
- Core switch and access switches are managed and support VLANs.
- Guest Wi-Fi is isolated from internal networks.
- This topology supports scalability and future growth.

SECURE • RELIABLE • SCALABLE

This network design ensures security, performance, and reliable connectivity for all departments of Nexora Digital Solutions, Inc.
